

1980 Census of Population and Housing

PHC80-P-12

GEORGIA

Preliminary Population and Housing Unit Counts

This report is based on preliminary counts of population and housing units as compiled in the 1980 census district offices. The series consists of 56 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 56 for Puerto Rico, Guam, Virgin Islands, and American Samoa. Preliminary counts for the Northern Mariana Islands and the remainder of the Trust Territory of the Pacific Islands are not part of this series of reports. These counts will be made available in a separate press release issued for each area.

As of April 1, 1980, the population of the State was 5,404,384, according to a preliminary count of the returns of the 1980 census. This figure represents an increase of 816,454, or 17.8 percent, from the 4,587,930 inhabitants enumerated in the 1970 census.

The preliminary count of housing units in the State as of April 1, 1980, was 2,021,207. This figure, which includes both occupied and vacant housing units, represents an increase of 550,453, or 37.4 percent, from the 1,470,754 units enumerated in the 1970 census.

This report presents preliminary 1980 census population and housing unit counts for the State, counties,

county subdivisions, incorporated places, standard metropolitan statistical areas (SMSA's), and congressional districts.

For SMSA's which have component parts in another State(s), data shown in this report relate only to this State's portion. For the remainder of the SMSA data, see the appropriate State(s) report.

These preliminary figures will be superseded by the final counts to be shown in Advance Reports, series PHC80-V, which will be issued within the next few months. The final counts are subject to further processing and review and may differ from the preliminary figures.

An outline of the publication and computer tape program for the 1980 Census of Population and Housing can be obtained free of charge from the Data User Services Division, Bureau of the Census, Washington, D.C. 20233.

Symbols used in tables. A dash "--" represents zero. Three dots "..." means not applicable, and "(NA)" means not available. The prefix "r" indicates that the count has been revised since publication of 1970 census reports.

Issued January 1981

Table 1. Population and Housing Unit Counts for the State by Counties and County Subdivisions: 1980 and 1970

[Counts relate to areas as delineated at each census. Information on boundary changes will be shown in the PC80-1-A report for this State. For meaning of symbols, see text]

Tenth	534 638	460 829	197 761	142 216

¹Population counts for congressional districts are based on 1970 census complete-count data; housing unit counts are based on 1970 census sample data. These counts may not add to State totals because of post-1970 census corrections which were not assigned by congressional district and also because of sampling variability for housing unit counts.

Because of late changes in the data, the population and housing unit counts for 1980 shown in the tables of this report for the following areas are superseded by the numbers below. Changes to these areas may affect the totals for the higher levels of geography in which they are located.

Area	Population	Housing units
The State. . . .	5 404 384	2 021 207
Bryan County . . .	9 972	3 491
